Security Risk Assessments

Secure what counts with NuLeaf

NuLeaf's proven approach uncovers your security challenges and maps out a plan to overcome them:

1. We break down the complexity of compliance laws into real-world implementation requirements

2. We incorporate these implementation requirements into your organization's security baseline definition using the 7-Domains of a Typical IT Infrastructure as a framework and model:

- User Domain
- Workstation Domain
- LAN Domain
- LAN-to-WAN Domain
- Remote Access Domain
- WAN Domain
- System / Application Domain

3. **We perform a customized security risk assessment based on your security baseline definition**

4. We conduct a gap analysis so your organization knows what needs attention in order to achieve or exceed your security baseline definition

5. We provide prioritized recommendations and cost estimates so your organization can properly plan and budget for security risk mitigation solutions

NuLeaf Security Risk Assessments experts know the Cannabis industry. When compliance issues are slowing you down, we can get you back on track.
